

# CD100A

## COMBUSTIBLE GAS LEAK DETECTOR

Small, handy and easy-to-use gas leak detector for combustible gases. The 45 cm long and flexible gooseneck with illuminated sensor tip is ideal for finding leaks even in hard-to-reach places.

### FEATURES

- Adjustable tick rate for fast leak detection
- Visual and audible alarm
- Precision Sensor
- Illuminated sensor tip for easy leak detection
- Low weight
- Reliable and sophisticated technology
- Protective cover
- Earphone socket

### SPECIFICATIONS

<b>Gases</b>	Acetone, alcohol, ammonia, butane, gasoline, natural gas, industrial Solvents, methane, propane, hydrogen sulfide, thinners and many combustible gases more. <i>Please contact us for other gases.</i>
<b>Power Supply</b>	9V DC block battery
<b>Operating Time</b>	5 hours
<b>Sensor</b>	Semiconductor
<b>Sensitivity</b>	50 ppm
<b>Alarm Indicators</b>	LED, Tickrate
<b>Dimensions in mm</b>	200 x 100 x 38 mm
<b>Flexible Probe</b>	450 mm
<b>Operating Temperature</b>	0 – 50°C / 10 – 90 % rh, non-condensing

### ACCESSORIES

<b>OH1</b>	Earphones
<b>AC501</b>	Case for the gas leak detector
